F. H. Herrick

1905

- March 6 - Burke Baxter said he heard the Song Sparrow.
- March 5 - I saw a flock of about two dozen Robins in our orchard late in the afternoon.
- March 8 - I heard the Song Sparrow singing in Washington Park.
- March 11 - Heard and saw several Bluebirds in our yard this A.M. and saw many more in vicinity of Warrensville and Randall and in the same locality saw one Bronzed Grackle, also Robins, Nuthatches, Chickadees, Downy, Hairy and Red Bellied Woodpeckers, Song Sparrows, several Red Shouldered Hawks and three Barred Owls.
- March 17 - Thought I heard a Red Wing Blackbird on a neighbor's place.
- March 18 - Saw and heard one Yellowhammer and many Meadowlarks. Heard one Towhee and Summer or Breeding note of the Cardinal and saw and heard what I am positive was a Killdeer. Also saw a variety of flycatcher and a small Hawk (Sparrow)? and saw a Fox Squirrel go into a leaf nest. Heard a few frogs piping and caught a little fellow, some variety of wood frog, I presume.
